1. The response filed 19 November 2004 has been entered. The following amendment is made to correct an omission so that the claims are consistent with applicant's remarks regarding the amendment filed 03 March 2004. See page 8, lines 13-16.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS:

Claim 53, line 3, after water-soluble, insert, gel

3. The following is an examiner's statement of reasons for allowance:

Applicants show a coated microparticle composition. The prior art shows coated microparticles for delivering active agents. The prior art does not show nor fairly suggest applicants' composition wherein a solid gel forming solid particle comprised of two or more of the group consisting of dextrose, starch, gelatin, albumin and polyvinylpyrrolidone is utilized as a carrier for a coating layer comprised of an active material and a sugar

polymer. The particular combination enables a more uniform coating and allows the active agent to bind efficiently to the surface of the microparticle without agglomeration or loss.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 53-63 are allowed.

Claims 1-52 have been canceled.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M Spear whose telephone number is 571 272 0605. The examiner can normally be reached on Monday thru Friday from 6:30 AM to 3 PM.
